# Ground Products Truck

500 - 3,000 Gallons / 1,892 - 11,356 Liters  
Flow Rates: 10 - 100 GPM / 95 LPM

## Standard Commerical Specifications

### Tank

Tank capacity is adaptable to needs. Option for single or split with compartments (split only available for 2000 gallons and above) for diesel and gasoline. Tank is fully baffled and includes overturn protection, future vapor recovery ready, manhole with venting, and full length under-frame. Available in aluminum or stainless steel. Meets all requirements of DOT 406 specifications.

### Chassis

Various cab types and drivetrain options available. (Detailed specifications available upon request.)

### Standard Dimensions

26'L x 96"W x 116"H

## First-Class

**Safety and quality first!** We deliver both. Garsite's trucks are engineered for top performance. Our team knows the laws, regulations, and guidelines your equipment needs to meet for the highest safety standards. We meet them. Every time.

## Simple

**Get it all with us!** Our decades of industry experience allow us to streamline the process, making it simple for you! We don't cut corners, and you get a quality result.

**PUMP:** PTO driven positive displacement or centrifugal options along with electric options available.

**FILTER SYSTEM:** Facet filter housing with differential pressure gauge, air eliminator, water defense and drain valve. Options include top mounted DP Gauges for diesel & mogas, filter monitor and milipor sample port.

**FLOW METER:** One meter, with large numeral reset counter and totalizer, register head.

**HOSE REELS:** Single compartment with one hose reel. Split compartment with two reels, one on each side; sized for hose compatibility, non-ferrous internals, explosion proof electric rewind motors and switches, auxiliary manual rewind. An isolation shut-off valve is installed immediately upstream of reel. Dispensing equipment mounted on platform at rear of unit.

**HOSES:** Variety of hose sizes available. Size adjusted to accommodate GPM. Hose lengths from 25 - 100 ft.

**BOTTOM LOADING:** Tank is bottom loading ready which includes: bottom loading valve; kamvalock type connection; pressure gauge; manual shut off valve.

**DEFUEL OPTION:** Optional defuel stub/Self Load Included – 3" Dry break adaptor for DIESEL, 2" dry-break for MOGAS (BL-34).

**TEST:** Flow tested with fuel for performance.

**FINISH:** Tank remains in natural finish, cab and equipment painted one color with polyurethane paint. Custom paint available at additional cost.

**SAFETY FEATURES:** : All required safety features including static reel with cable and bonding clamp, brake interlock system, emergency shut down system, fire extinguishers, light at pumping platform and register head, floodlight at cabinet area. Backup camera system is included as standard and incorporated into the unit at the factory.

## Adaptable

**Our team of engineers and sales support are here to create the equipment you need!** Adjust specifications from tank size to filter system. Get the right equipment for the right job. Garsite will make it happen.

**MISCELLANEOUS:** Additional features include: weather proof electrical junction box, rear fenders, tank access ladder, shielded exhaust, tank capacity chart with gauge stick, product placards and product reflective decals.

**COMPLIANCE:** Meets all applicable NFPA385 codes.

**CONTRACTS:** Garsite is a GSA and DLA contract holder.

**OPTIONS:** The above items are for a standard Garsite refueler. All units can be customized to fit your specific requirements. Please contact a Garsite representative for a complete list of available options and configurations.

Three Mount Options

## We're the experts, so you don't need to be!

Our team is here to assist you through the buying process. Garsite representatives understand the equipment inside and out. They work directly with our engineers to design everything to meet your needs.

After production, every unit is checked on our own test stand, equipped with a 20,000 gallon above ground tank. This provides everything we need to test every part of your equipment.

Contact us today to explore your options with Garsite. We have representatives specializing in the domestic and international aviation, above-ground storage tank, and military industries.
